

Transforming the Cyber Insurance Procurement Process

HITRUST-powered insurance through a shared risk facility

Building a more resilient marketplace

As threat and regulatory environments continue to evolve, comprehensive cyber insurance solutions are critical to supporting business operations and building resiliency. HITRUST and Trium Cyber have partnered to offer a first of its kind insurance product to the HITRUST customer community.

Designed to address the growing complexities and inconsistencies in the cyber insurance market, the HITRUST Shared Risk Facility delivers improved efficiencies and insurance outcomes for organizations that hold HITRUST certifications. Built on HITRUST's founding principles of **transparency, scalability, consistency, accuracy, integrity, and efficiency** and supported by Lloyd's of London-backed syndicates, this first-of-its kind solution is standardizing and transforming the cyber insurance procurement process.

The HITRUST Cyber Insurance Facility Difference

Designed to support organizations with mature risk postures across the U.S. healthcare value chain and beyond, the HITRUST Cyber Insurance Facility offers

- \$10M+ cyber insurance limit
- Superior terms and conditions
- Strong in-house claims handling
- Streamlined, simplified, quick underwriting and renewals
- Competitive Premiums, discounted compared to open-market
- Efficient applications that leverage your HITRUST assessment data

Participating organizations benefit from:

- Ease of application using r2 assessment
- Consistent renewals
- Shorter underwriting process
- Strong, enhanced two-party assurance
- Turnkey coverages
- Standardized data collection
- Competitive premiums
